## ABOUT ME

Enthusiastic and detail-oriented Front-End Developer with experience in building responsive, user-friendly web applications. Proficient in modern web technologies such as JavaScript, Typescript, React.js, Next.js, and Tailwind CSS. Currently working on a full-stack eCommerce grocery application using Medusa.js, demonstrating strong problem-solving skills and the ability to integrate back-end APIs. Passionate about clean code, performance optimization, and creating seamless user experiences.

---

## EXPERIENCE

### Front-End Developer Mouse Point Pvt, Ltd

January 2023 - March 2024

- Developed web applications from scratch using React.
- Fetched data and displayed to frontend from Firebase and Rest API.
- Worked in Jira, a collaborative environment, to receive design requirements, peer program, and manage tasks.
- Successfully integrated payment gateway using Razorpay.
- Rebuilt old developers hiring web application, which previously was on Python.
- Worked on migrating to React.

### Self Directed Project

- Developing a full-stack grocery eCommerce web application using React.js and Next.js.
- Integrated Medusa.js back-end APIs to manage products, categories, and variants.
- Collaborating on the admin dashboard for product and category CRUD operations.
- Created visually appealing UI components and optimized user experience across mobile, tablet and desktop platforms.
- Designed and implemented a dynamic product details page.

---
